ABOUT US

55 years giving value to your waste

At Wursi Group we were born with a clear purpose: to preserve the environment and actively contribute to the circular economy. Our commitment to society and the environment in which we operate is the basis of our corporate culture and values, which guide each of our actions and decisions.

We are proud to find the perfect balance that defines our company, a balance between innovation, sustainability and close service to our customers and suppliers. Our mission is to drive the circular economy by recycling and transforming plastic, generating high quality recycled raw material that responds to the needs of our customers.

We do this in a close, professional and constant manner, without losing our family essence that has been key to our growth and success.

QUALITY

Commitment as a guarantee of success

At Wursi Group, we work every day to comply with current legislation and improve the quality of our products and services. Since 2020, we have been ISO 9001:2015 certified, which supports our Quality Management System, guaranteeing continuous improvement in our processes.

In addition, we are **RECYCLASS-certified**, which ensures **transparency** in our recycling processes and guarantees the **traceability and conformity assessment** of recycled plastics, allowing our customers to incorporate our materials into their production processes.

At Wursi Group, quality is a constant commitment to all our stakeholders.

PRODUCTION PROCESS

Efficiency through technology

Every day we work to provide exceptional service and trusted advice, ensuring that our customers find in us not just a supplier, but a strategic partner.

All our materials are **homogenised by batches** to guarantee total traceability of our products, which allows us to ensure the quality and reliability of everything we offer.

We constantly invest in state-of-the-art machinery in order to optimise our production processes, improve efficiency and maintain the highest quality standards. **We see innovation and state-of-the-art equipment as fundamental to exceeding our customers' expectations** and offering them solutions adapted to the demands of the market.

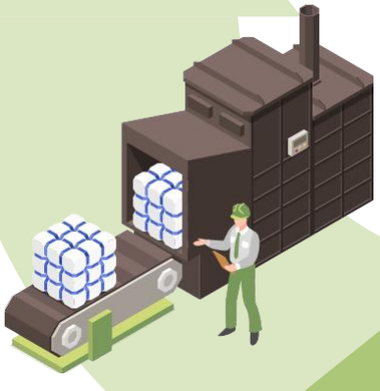
Wursi Group is synonymous with commitment, quality, sustainability and, above all, respect for our planet.

1 RAW MATERIAL CLASSIFICATION

We receive the polymers and classify them under strict quality controls.

4 FINAL CONTROL & PACKAGING

After quality control, we package the material according to your specifications, ready for reuse.



+2,000

TONS PER MONTH

2 GRINDING

We grind the parts into particles of the perfect size for your needs with our machinery.

3 EXTRUSION & GRANULATION

We process polymers with our high-capacity extrusion lines, ensuring the best performance.
